Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a hydraulic coupling system as defined in claim 1 including a two-way valve which provides a preload pressure to the system when the pump is not operating and the clutch pack is disengaged.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The amendment received March 10, 2006 obviates the objection to the specification and the rejection under 35 USC 112, second paragraph. Accordingly, the objection to the specification and the rejection based on 35 USC 112 are withdrawn.

Art Unit: 3681

The rejections based on 35 USC 103(a) are overcome by the amendment filed March 10, 2006. Therefore, those rejections are also withdrawn, and the claims are deemed allowable for the reason set forth above under Reasons for Allowance.
